

Hi, I'm Easton Brady. I'm a husband, a dad, and someone that loves his country and community. I currently work in Facilities Management for the state of Utah. I am a big sports fan and you can almost always catch me at BYU football games.

I am running for Payson City Council because I care about preserving the way of life for all our residents and making improvements when necessary. I'm very motivated to represent my community, especially when it comes to public safety, growth, and other issues. Payson has been home to my young family for 3 years now; we have absolutely fallen in love with this place and embrace the beautiful country feel. Payson will grow, but it must benefit our residents first and not change the small town charm that we love so much about our city.

Let's preserve our heritage and protect the small town values of Payson, vote Easton Brady for Payson City Council!
