

I am a husband of 20 years and father of 4. My family and I have lived in Payson for almost 4 years. We Love the small-town feel, and we love its community. We want to give back.

I want to know how local government works and I want to share that information with its citizens. Transparency is my goal. Clear communication and education will be a top priority for me. No one should walk away from a city council meeting with more questions about what we do. I want to change the way we work together.

The city council should represent all its citizens. Not work against them. I won't be there to impose my personal agenda or opinions. I want to work with you by hearing your concerns and input and use that in the decision-making process for the betterment of Payson City.

Payson is growing fast. I believe we can still keep the small-town feel while accommodating new growth. We can only do that by working together. I want you to take pride in the community you live in.

I would appreciate your support and your vote.
