### Pressurized Irrigation Fees

The City Council has approved the increase in the pressurized irrigation fees to go into effect on April 1, 2022. PI meters were installed in 2019 and 2020 in order to assist with water conservation and to meet the State of Utah's requirement to meter all connections if a City has a separate pressurized irrigation system. The following is what the City Council approved for the upcoming rate schedule:

The base rate is \$19.00 per month (billed all 12 months)

The water usage rate is calculated on a 3-Tier Rate Structure:

- Tier 1 - 0 to 50,000 gallons of usage billed at \$0.60 per 1,000 gallons
- Tier 2 - 50,001 to 90,000 gallons of usage billed at \$.75 per 1,000 gallons
- Tier 3 - 90,001 gallons and up of usage billed at \$1.00 per 1,000 gallons

With the new rates, your water bill will go up during the irrigation season, but will go down during the non-irrigation months due to the lower base rate. Your yearly PI bill should be about the same if you are conservative and monitor your usage on the Sensus Customer Portal. Go to our website [paysonutah.org](http://paysonutah.org) for instructions on how to sign in to the customer portal.
