### I.D.D.E.— Illicit Discharge Detection and Elimination

Please keep an eye on your dumpsters, garbage cans and storm inlets in your neighborhoods for illicit dumping of any kind.

Payson City, with the help of the Utah Division of Water Quality and the EPA are working together to keep the waters of Utah Lake clean and chemical free. We need all of the residents and the business leaders to try and keep all illicit discharges and dumping of toxic chemicals out of our storm drain system, streams, lakes and their distributaries. Check your dumpsters periodically and your front yards for problems. If you notice any issues call your city representative.
