Rank Choice Voting

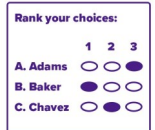

Rank Choice Voting (RCV) will be used for the first time in Payson City for the General Election on November 5, 2019 to elect three city council members. RCV is a method of voting that allows voters to rank multiple candidates for the same office in order of preference.

RCV can only be used to elect the offices of mayor and council. It is not used in elections for the school board, county, state or federal offices. RCV combines the primary and general election into one event in November.

Using the RCV, votes are tabulated to determine winners. In order to be declared the winner of a race, a candidate must reach a threshold of 50 percent plus one of the total votes cast for the office.

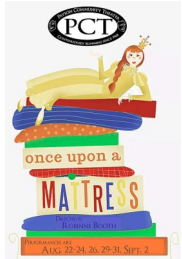

The city will post additional information about RCV and elections on social media and the city's website. Don't forget to follow the city on Facebook, Twitter, and Instagram.

Ranked choice voting allows you to rank your candidates in order of preference.

A fence permit is required before installing a new fence. There is no charge for the permit, but it is important to ensure you are in compliance with city ordinances. Also, be advised that some subdivisions have additional regulations about fencing.
