

## Emergency Response Colored Signs

Emergency Response Colored Signs are a national standard. The system is designed to be standard throughout Payson City, the State of Utah, and the United States. We need to keep this consistent because responders from other areas will not understand any other colors besides Green, Yellow, Red, and Black. This system is not intended to be added to or changed. There are four colors: Green, Yellow, Red, and Black. Please do not add any other signs or change the colors. We have had some groups that added a white colored sign for “no one is home” and thieves have picked up on this.

Use colored paper or card stock to print these out.

The signs are as follows:

**Black is for a death, no words**

**Red**

**We need immediate  
help!**

**Yellow**

**We need help,  
but can wait.**

**Green**

**We are OK,  
no help  
needed.**

We need  
immediate  
help!

We need  
help,  
but can  
wait.

We are  
OK,  
no help  
needed.
